

The McMurty Mfg. Co. - Paint and  
Varnish Makers

Chuck Spaulding (#2355)

The illustration on the back cover of this issue is a photographically cropped copy of a cover that I recently acquired. The *Catalog of United States Perfins* does not list a user for perfin pattern M75.

The corner card provides this identification as The McMurty Manufacturing Company, Paint and Varnish Makers of 1533 Arapahoe Street in Denver, Colorado. I ran all the letters in the title together because that is the way that they are printed on the envelope.

A photocopy of this cover has been forwarded to the U.S. Catalog Editor, John Randall, for his consideration.

After five days return to

**THE MCMURTRY MFG. CO.**  
PAINT and VARNISH MAKERS  
1533 ARAPAHOE STREET  
DENVER, COLO.
